Found kittens?
If you've found kittens in Pima County, here's what to do.

START HERE:  Are the kittens injured or critically sick?

YES  NO

ESTIMATE THE AGE OF THE KITTENS

0-2 WEEKS OLD
Eyes closed or barely open

2-4 WEEKS OLD
Eyes open and alert; becoming mobile

4-5 WEEKS OLD
Very mobile and often talkative; can eat food

5-8 WEEKS OLD
Very active and playful; around 1-2 lbs

8+ WEEKS OLD
Very active and playful; 2lbs; Ready for spay/neuter and Trap Neuter Return

DON'T KIT-NAP!
A kitten's best chance of survival is with mom. Leave the kittens where they are.

If you want to help, make sure mom has access to shelter, food, and water. Contact a TNR group to have mom and kittens altered when 8 weeks old.

ARE YOU SURE?
Mom may be off hunting or not want to come around if people are present. Watch for her to come back for a few hours.

PRO-TIP: Leave a ring of flour around the kittens. Check in a few hours if you see mom's foot prints in the flour!

STOP!
Can you see the mom cat OR a nest?

YES  NO

STILL NO MOM  MOM CAME BACK

Visit HSSAZ.ORG/TNR or call 520-327-6088 ext 186 for Trap Neuter Return help once kittens are 8 weeks.

Socialize kittens starting at 4 - 6 weeks old if you want to re-home them or bring to a shelter. After 7 weeks, it becomes much harder to tame or socialize feral cats.

If kittens are friendly and social, visit www.NoKillPimaCounty.org for spay/neuter resources and re-homing advice.

For confirmed orphaned kittens, call...

- (For emergencies) Pima Animal Care Center at 520-724-5900 option 4
- Humane Society at 520-327-6088

If cats need to be trapped: ext 186
For Admissions and Intakes: ext 102
